THE STUART :: (formerly known as the sumo) 25

this dish came about not as a food challenge in the traditional sense. many years ago stuart used to come into work & could literally eat anything put in front of him. for years I made larger & larger plates hoping one day I would finally make one he couldn't finish. ladies & gentleman, this is the plate that did it (finish it in one sitting with no help, get it for free & join our wall of fame)
